TURKISH JOURNAL OF
BIOLOGY

<http://journals.tubitak.gov.tr/biology/>

Published by the Scientific and
Technological Research Council of Turkey

TÜBİTAK

SCOPE OF JOURNAL

- The Turkish Journal of Biology is published electronically 6 times a year by the Scientific and Technological Research Council of Turkey (TÜBİTAK).
- It is an international English-language journal for the publication of significant original recent research in a wide spectrum of topics in the earth sciences, such as geology, structural geology, tectonics, sedimentology, geochemistry, geochronology, palaeontology, igneous and metamorphic petrology, mineralogy, biostratigraphy, geophysics, geomorphology, palaeoecology and oceanography, and mineral-deposits.
- The journal publishes the highest quality papers and comprehensive review papers on hot topics of current interest, with high quality illustrations.
- Submitted papers should have regional implications and attract international interest as the journal aims to provide a medium for interdisciplinary papers that would be of interest to many different specialists.
- Specialized papers can be submitted if they illustrate significant progress in that specific area of the earth sciences. In addition to original and review articles, we are also interested in publishing discussions of papers that have already appeared in recent issues of the journal.
- The journal also publishes thematic sets of papers on topical aspects of geology or special issues of selected papers from conferences.
- Short articles (6 printed pages maximum) for rapid publication reporting a significant advance in the earth sciences with regional impact are welcome. Contribution is open to researchers of all nationalities.

CONTENTS

The ciliopathy gene product Cep290 is required for primary cilium formation and microtubule network organization	371
Elif Nur FIRAT-KARALAR	
A minimally invasive transfer method of mesenchymal stem cells to the intact periodontal ligament of rat teeth: a preliminary study	382
Nisa GÜL AMUK, Gökmen KURT, Melis KARTAL YANDIM, Aysun ADAN, Yusuf BARAN	
Exploring allosteric communication in multiple states of the bacterial ribosome using residue network analysis	392
Özge KÜRKÇÜOĞLU	
Long noncoding RNA PVT1: potential oncogene in the development of acute lymphoblastic leukemia.....	405
Narjes YAZDI, Mohammad HOUSHMAND, Amir ATASHI, Alireza KAZEMI, Ali Anjam NAJMEDINI, Mahin Nikougoftar ZARIF	
In vitro anticancer effect of tricyclic antidepressant nortriptyline on multiple myeloma	414
Ayşenur BİBER, İpek Z. DURUSU, Can ÖZEN	
In vitro evaluation of the effects of capsaicin on normal and cancerous cells of human cartilage.....	422
Nagihan HELVACI, Sabahattin CÖMERTPAY	
Comparative evaluation of nano and bulk tin dioxide cytotoxicity on dermal fibroblasts by real-time impedance-based and conventional methods	435
Şükran ŞEKER	
Oxidative Stress Upregulates the Transcription of Genes Involved in Thiamine Metabolism	447
Burcu KARTAL, Ahmet AKÇAY, Bedia PALABIYIK	
Cytoprotective effect of a functional antipollutant blend through reducing B[a]P-induced intracellular oxidative stress and UVA exposure.....	453
Gizem ÖRS, Sultan GÜLÇE İZ
