

INFORMATION FOR AUTHORS (JANUARY 2012)

The Turkish Journal of Chemistry accepts original articles and letters to the Editor in various fields of research in chemistry and chemical engineering. Submissions from contributors of all nationalities are welcome. The Editor may invite reviews covering recent developments in particular fields of interest.

Manuscripts can only be submitted through our on-line system <http://journals.tubitak.gov.tr/chemistry/>. Manuscripts must be written in Word format, double-spaced throughout. Nomenclature, abbreviations and choice of symbols should be in accordance with the rules of the IUPAC. Manuscripts should be easily understandable with clear explanations. Unnecessary explanations and details of routine procedures should be avoided.

This journal has no page charges.

All manuscripts must be accompanied by the Copyright Release Form, which can be found following the Instructions. This form must be completed and signed by the corresponding author on behalf of all the authors before processing of the manuscript can begin.

After the manuscript has been accepted for publication, i.e. after referee-recommended revisions are complete, the authors will not be permitted to make any additions.

The use of someone else's ideas or words in their original form or slightly changed without a proper citation is considered plagiarism and will not be tolerated. Even if a citation is given, if quotation marks (" ") are not placed around words taken directly from another author's work, the author is still guilty of plagiarism. Reuse of the author's own previously published words, with or without a citation, is regarded as self-plagiarism. All manuscripts received are submitted to iThenticate®, the plagiarism checking system, which compares the content of the manuscript with a vast database of web pages and academic publications. Manuscripts judged to be plagiarised or self-plagiarised, based on the iThenticate® report or any other source of information, will not be considered for publication.

Note: before publication, the galley proofs are always sent to the authors for correction. Mistakes or omissions that occur due to some negligence on our part during the final printing will be rectified in an errata section of a later issue. However, this does not include those errors left uncorrected by the authors in the galley proofs.

Degree symbols (°) must be used (from the Symbol list on the Insert menu in MS Word) and not superscript letter "o" or number "0". Multiplication symbols must be used (×) and not small "x" letters. Spaces must be inserted between numbers and units (e.g., 3 kg) and between numbers and mathematical symbols (+, -, ×, =, <, >), but not between numbers and percent symbols (e.g., 45%).

Abbreviations: Standard ACS abbreviations should be used throughout the manuscript and are employed without periods. The preferred forms for some of the more commonly used abbreviations are mp, bp, °C, K, min, h, mL, µL, g, mg, µg, cm, mm, nm, mol, mmol, µmol, M, mM, µM, ppm, HPLC, TLC, GC, 1H NMR, GC-MS, HRMS, FABHRMS, UV, IR, EPR, ESR, DNase, ED50, ID50, IC50, LD50, im, ip, iv, mRNA, RNase, rRNA, tRNA, cpm, Ci, dpm, Vmax, Km, k, t1/2. All non-standard abbreviations should be defined following the first use of the abbreviation. For a detailed listing of standard abbreviations and Schemes, see The ACS Style Guide; American Chemical Society: Washington, DC, 1997.

The format of the manuscript should be as follows:

1. TITLE: Should be short and informative and written in sentence case.

2. TITLE PAGE: The title page should contain the following information, full title of the manuscript, and full names and addresses of all authors. The corresponding author should be clearly indicated with his/her name, full postal address, telephone, mobile phone (if applicable) and fax numbers, and e-mail address.

3. ABSTRACT: Should not exceed 200 words.

4. INTRODUCTION: Should include the aims of the study and results from previous notable studies.

5. EXPERIMENTAL: Experimental methods should be described clearly and briefly.

6. RESULTS AND DISCUSSION: This section may be separated into two parts.

Unnecessary repetition should be avoided.

7. ACKNOWLEDGEMENTS: Should be as short as possible.

8. REFERENCES: Must be numbered in the paper, indicated by superscript after punctuation, and listed in the order in which they appear in the text.

References must appear as follows:

Periodicals: (i) Surname(s) and Initial(s) of author(s) (authors separated by semi-colons), (ii) Title of the periodical abbreviated according to the international abstract list of journals and in italics, (iii) Year of publication in bold, (iv) Volume number in italics, (v) Page numbers (first and last pages).

Examples: Lauzon, C.; Charette, A. B. *Org. Lett.* **2006**, *8*, 2743-2745.

Motoki, R.; Tomita, D.; Kanai, M.; Shibasaki, M. *Tetrahedron Lett.* **2006**, *47*, 8083-8086.

Demir, A. S.; Reis, Ö.; Esiringu, İ.; Reis, B.; Barı, Ş. *Tetrahedron* **2006**, *63*, 160-165.

Book, section of a book, encyclopedia or thesis: (i) Surname(s) and Initial(s) of author(s) (authors separated by semi-colons), (ii) Title of publication (in italics), (iii) Name of the editor(s) (if applicable), (iv) Name of publisher and place of publication, (v) Year of publication.

Examples: Berkessel, A.; Gröger, H. *Asymmetric Organocatalysis*, Wiley-VCH, Weinheim, 2005.

MacMillan, D. W. C.; Lelais, G. *In New Frontiers in Asymmetric Catalysis*; Mikami, K.; Lautens, M., Eds.; John Wiley & Sons, Hoboken, NJ, 2007.

9. FIGURES AND TABLES: All illustrations (photographs, drawings, graphs, etc.), not including tables, must be labelled "Figure".

All tables and figures must have a caption and/or legend and be numbered (e.g., Table 1, Figure 1) unless there is only one table or figure, in which case it should be labelled "Table" or "Figure". Captions must be written in sentence case (e.g., Spectrum of high-pressure mercury vapor lamp.)

All tables and figures must be numbered consecutively and given at the end of the manuscript.

The resolution of images should not be less than 118 pixels/cm when width is set to 16 cm.

Images must be scanned at 1200 dpi resolution and submitted in jpeg or tiff format.

Graphs and diagrams must be drawn with a line weight between 0.5 and 1 point. Graphs and diagrams with a line weight less than 0.5 point and more than 1 point are not accepted. Scanned or photocopied graphs and diagrams are not accepted.

Charts must be prepared in 2 dimensions unless required by the data used. Charts unnecessarily drawn in 3 dimensions are not accepted.

Figures must be submitted both in the manuscript and as separate files.

Notes on figures that are submitted as individual files:

Figures that are charts, diagrams, or drawings must be submitted in a modifiable format, i.e. our graphics personnel should be able to modify them. Therefore, if the program with which the figure is drawn has a "save as" option, it must be saved as "*.ai" or "*.pdf". If the "save as" option does not include these extensions, then the figure must be copied and pasted into a blank Microsoft Word document as an editable object. It must not be pasted as an image file (tiff, jpeg, or eps) unless it is a photograph.

Notes on figures that are embedded in the manuscript:

Figures must be copied and pasted into the manuscript as an editable object. It must not be pasted as an image file (tiff, jpeg, eps) unless it is a photograph.

Tables and figures, including caption, title, column heads, and footnotes, must not exceed 16 × 20 cm and should be no smaller than 8 cm in width. Tables must be clearly typed, each on a separate sheet, and double-spaced.

Tables may be continued on another sheet if necessary but the dimensions stated above still apply.

10. CORRESPONDENCE ADDRESS:
