This Cover and Contents is brought to you for free and open access by TÜBİTAK Academic Journals. It has been accepted for inclusion in Turkish Journal of Veterinary & Animal Sciences by an authorized editor of TÜBİTAK Academic Journals. For more information, please contact academic.publications@tubitak.gov.tr.
The Turkish Journal of Veterinary and Animal Sciences is published electronically 6 times a year by the Scientific and Technological Research Council of Turkey (TÜBİTAK).

Accepts English-language manuscripts on all aspects of veterinary medicine and animal sciences.

Contribution is open to researchers of all nationalities.

Original research articles, review articles, short communications, case reports, and letters to the editor are welcome.

Manuscripts related to economically important large and small farm animals, poultry, equine species, aquatic species, and bees, as well as companion animals such as dogs, cats, and cage birds, are particularly welcome.

Contributions related to laboratory animals are only accepted for publication with the understanding that the subject is crucial for veterinary medicine and animal science.

Manuscripts written on the subjects of basic sciences and clinical sciences related to veterinary medicine, nutrition, and nutritional diseases, as well as the breeding and husbandry of the above-mentioned animals and the hygiene and technology of food of animal origin, have priority for publication in the journal.

A manuscript suggesting that animals have been subjected to adverse, stressful, or harsh conditions or treatment will not be processed for publication unless it has been approved by an institutional animal care committee or the equivalent thereof.

The editor and the peer reviewers reserve the right to reject papers on ethical grounds when, in their opinion, the severity of experimental procedures to which animals are subjected is not justified by the scientific value or originality of the information being sought by the author(s).
CONTENTS

An evaluation of canine inguinal hernias containing the uterus: clinical experience of four cases (2017-2022) and literature review ................................................................. 305
Firdevs BİNLİ, Fatih BÜYÜKBUDAK, İpek İNAN, Volkan FERAHOĞLU, Anıl Gürkan AKSU, Murat FINDIK, Serhan Serhat AY

Comparison of bacterial profile and antibiotic susceptibility isolated from surgical site after ventral midline and lateral flank approaches of ovariohysterectomy in queens and bitches .................................................. 316
Ebru KARAKAYA BİLEN, Serpil KAHYA DEMİRBIÎEK, Öznur YILMAZ, Muhammet Ali KARADAĞ, Havva ANER

Impact of black soldier fly (Hermetia illucens) fresh meal on the growth performance, digestive enzymes, hematology, and intestinal histology of cork fish (Channa striata) ................................................................. 324
Boby MUSLIMIN, Danang YONARTA, Eny HERIYATI, Helmizuryani HELMIZURYANI, Meika Puspita SARI, Dewi APRYANTI, Rahmat KURNIAWAN

Stereological investigation of medulla oblongata volume in Norduz sheep .................................................. 334
Ozan ERTAŞ, Gamze ÇAKMAK

Evaluation of different stocking densities on fattening performance, slaughter, carcass, meat quality characteristics, and fatty acid composition in New Zealand rabbits ................................................................. 345
Büşra YARANOĞLU, Mustafa Hilmi YARANOĞLU, SalihYAYSAL, Adnan Adil HİŞMİOĞULLARI

Determination of virulence genes and antibiotic resistance profiles of Streptococcus agalactiae isolated from buffalo milk ................................................................. 356
Nevin TUZCU, Hasan Hüseyin HADÎMLİ, Beatriz PADRON

Effect of feeding frequency on growth, fecundity, and meat quality of Abant Trout (Salmo abanticus Tortonese, 1954) broodstock .................................................................................. 365
Mehmet Zeki ALKAN, Nadir BAŞÇINAR

In vitro antimicrobial and antibiofilm-forming activities of Origanum munzurense plant extract on some foodborne gram-negative bacteria ................................................................. 377
Halil YALÇIN, Esra ZEYBEK, Oktay ÖZKAN, Asum KART

Could there be a relationship between feeding characteristics and the shape of condylus occipitalis and foramen magnum in mammals? ................................................................. 386
Yasin DEMİRASLAN, İsmail DEMİRÇİOĞLU, İftar GÜRBÜZ, Funda AKŞÜNGER KARAAVCI, Abdullah ORTADEVICİ, Özcan ÖZGEL

Expression of HIF-1α, Caspase-3, p53, HSP70, HSP90, and NRF2 in the canine spleen with siderofibrotic nodules: an immunohistochemical and immunofluorescence perspective on apoptosis, ferroptosis, and oxidative stress .............. 397
Ali BABANEZAD-GAJOUTI, Amir AMNIAT-TALLAB

The first data of a newly recorded native goat genotype called Manavlı in Türkiye: growth traits of kids ................................................................................................................. 413
Aykut Asım AKBAŞ, Mustafa SAATCI, Özkan ELMAZ, Can Metin YAZICI
